INTRODUCTION

In 1881 the Indiana Legislature passed an Act effective in 1882 creating the State Board of Health responsible for registering vital statistics. Compliance with the Act was sporadic until 1907 when the Act was amended and penalities specified. County Health Departments were accountable for collecting the data which, beginning in October 1907, was sent to the State Board of Health.

Marion County devised a printed postal card to be answered concerning births and sent to the Department of Public Health & Charities, Courthouse, Indianapolis. The present compilation was made from these original cards which are now in the Genealogy Division of the Indiana State Library, 315 W. OH St., Indianapolis, IN 46202.

The questions appearing on the cards are as follows:

1. Name of child
2. No. of child of this mother
3. Sex
4. Color
5. Date of birth
6. Place of birth
7. Born alive
8. Legitimate
9. Mother's maiden name
10. Mother's age
11. Mother's residence
12. Mother's birthplace
13. Father's name
14. Father's age
15. Occupation
16. Father's birthplace
17. Returned by M.D.
18. Postoffice address
19. Date of return

NO data has been omitted.

Among the various W.P.A. projects in the 1930s were the indexing of births 1882 - 1920. Spot-checking of the Marion Co. Index* reveals that most records appearing in this work were NOT included. No cards were found for 1900 and 1901;

---

* the city of Indianapolis was not included.

very few exist for 1902. The majority of the cards were dated 1903 - 1907.

It is apparent that many births were performed by midwives as well as physicians. Some midwives listed prior to 1900 include Mrs. ALISCH 1885, Jos. GILL 1884 & 1887, Augusta JACKMAN 1883, 1887 & 1892, Mrs. O'DILL 1884 Cumberland, Mrs. M. ROHNER 1883, Em. SCHELL 1884 and Anna UPHAUS 1887.

In addition to personal detail on the cards one finds that the parents were native of such unlikely places as Australia China, Egypt, Greece, Hungary, Iceland, Indian Territory, Jamaica W.I., Mexico and Syria. Elizabeth RUGENSTEIN was born in 1884 "in transit Atlantic Ocean".

Some unusual occupations listed are opera singer, thief, oyster & fish merchant (R. L. ROPER, born Whitmore, Eng.), Lt. Comd. U.S. Navy, private detective and "gypsies living in a tent".

Abbreviations used are the standard 2 letters for states, "----" = left blank on the card, m = male, f = female, w = white, b = black, y = yes and n = no.

The everyname index of over 34,000 entries does NOT include the person who delivered the child. The handwriting and spelling were erratic so undoubtedly there will be errors despite the care given to report these births exactly as they appear on the official record.

The wealth of detail in this volume is not to be found elsewhere.
